

The Undergraduate Study of History at SFState

The History B.A., The History B.A. with Honors Concentration, and The History Minor

THE STUDY OF HISTORY provides a way of knowing, a mode of understanding human behavior by examining things in the light of their origins, of the changes they have undergone during their existence, and of the processes by which they have reached their present state. Students who major in history will learn how to apply such an approach to the study of human communities. History students can expect to encounter such issues as these: How did the Depression of the 1930s influence changes in American government? How has the communist revolution affected the Chinese family? Why did European nations create empires in the 19th century?

STUDENTS OF HISTORY can expect to develop both knowledge about the past and skills of analysis and interpretation. They learn how to assess the adequacy of evidence, how to compare and contrast, how to synthesize, and how to draw conclusions. Some history majors will find careers teaching history, and others will present history to the public through archives, museums, writing, preservation programs, and the like. Other history majors will choose fields such as foreign service or will pursue professional studies in fields such as law, business, library science, or journalism. Because the skills learned in the study of history can be applied to a variety of circumstances, they will prove useful throughout life regardless of one's eventual choice of career.

THE HISTORY DEPARTMENT at S.F.S.U. offers several programs designed to meet the needs of different groups of students interested in history. The history major provides a foundation in the history of Western Civilization or World History, the history of the United States, and historical analysis, plus advanced work in the history of three regions of the world. The Honors Concentration builds upon the history major by adding an honors thesis. The Waiver Program for the Secondary Teaching Credential in History/Social Science builds upon the history major by adding courses designed to provide appropriate subject competency for the prospective secondary teacher. The history minor allows majors in other fields to pursue a structured introduction to history. Within any of these four undergraduate programs, ample opportunity exists for students to develop special interests, for example, urban development, diplomatic history, women's history, or the history of ideas. Students may choose to pursue interests in depth or to explore a wide variety of concerns within their major. History faculty members have earned their doctoral degrees at leading universities throughout the nation and the world. Many have achieved significant recognition for their contributions to their fields.

What Do Our Alumni Say?

I learned that History as discipline is informed by our present and that drawing connections

and thinking critically about how History is created is as important as understanding general change over time.

Aliyah Salahuddin

SFSU History BA '10 MA'12

Department Chair of African-American Studies at
College of San Francisco

Upon entering the PhD program at Stanford I felt I was more prepared than many of my

peers due to the training I had at SF state. I also learned the importance of networking and discussing your work with people from disparate fields. I had an amazingly supportive and talented cohort during my time there. Six years later, many of my former fellow grad students and I are still in touch. We regularly share information, discuss our work and support each other as we pursue our various career goals.

Rachael Hill, SFSU MA '11

PhD candidate History Department at Stanford University

Even if one does not pursue an advanced degree, history is an extremely useful and

gratifying major. Perhaps more than any other major, it enriches our intellectual life and provides ample opportunity to practice and develop the essential arts of critical thinking, persuasive argumentation, and clear writing.

in the California State Legislature

What Do Our Alumni Say?

What did I learn in the History Department at SFSU that serves me today?

- The ability to methodically and thoughtfully, yet quickly, digest and synthesize massive amounts of content and data.
- A true sense of collaboration and collegiality, two of the most sought after “soft skills” by HR departments.
- Impeccable writing skills, a cornerstone of effective communication in the digital realm.
- An abiding respect for the coexistence of theory and practice.

Rob Alper SFSU US History, BA '05

Currently a Subject Matter Expert at Cengage Learning and Technology

Working on exhibits and our various social media platforms puts my writing to the test. I

have to balance those patrons who know a great deal about bookbinding and its history with those who know nothing at all, and I have to try and make it interesting for both (and everyone in between). The exhibits and social media posts have to be engaging, approachable, and clear, and walk a line between academic analysis and an introductory

survey of the topic at hand.

To me, this is the best part of history. I work with the stuff of history, and I get to present it to people every day, sharing why it's important, interesting, and exciting.

History (B.A.) — 39 units

Required Courses (15 units)

- HIST 110 History of Western Civilization I **or** HIST 114 World History to 1500
- HIST 111 History of Western Civilization II **or** HIST 115 World History Since 1500
- HIST 120 History of the U.S. through Reconstruction
- HIST 121 History of the U.S. since Reconstruction
- HIST 300 GW_Seminar in Historical Analysis - GVAR (Must pass with a “C” or better, cannot be taken CR/NC)

Fields of study (24 units)

OPTION I (geographic): Students should complete 12 upper division units in *one* field of study and 6 upper division units in *each* of *two* other fields of study. US History must be one of the three fields.

- US History
- Choose two fields from among the following: Africa, Asia (may include the Middle East), Europe (either Europe before 1500 or Europe since 1500), or Latin America.

OPTION II (thematic): Students may complete 6 upper division units in each of three fields of study, distributed geographically as above, and 6 elective upper division units, so long as a minimum of 12 upper division units fall under a theme approved on departmental advisement such as Empire and Imperialism; Gender, Sexuality and the Body; Religion and Society; or the Pre-modern World; (applicable courses are listed in this document).

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case additional upper division courses will be needed to reach the required total. General Education advising is available through Undergraduate Advising in Administration 211 and, for history majors, through the Academic Resource Center in Humanities 112.

All history majors must include at least one proseminar (HIST 640, 642, or 644. These are variable topic courses that change every semester). Successful completion of History 300 GVAR is required before you can take a proseminar. Preferably, your proseminar will be in the primary field, although it may be in any field of emphasis. Please note, that the proseminar requirement **ALSO** counts as 3 units of upper division history in the field of emphasis it is taken. For example, History 642, Silicon Valley, not only completes your proseminar requirement, but may also count as three units of US, Europe after 1500, or World history. Each semester our majors are sent a list of courses being offered and which fields of emphasis each course fulfills, but we also encourage you to drop by Science 275 and get major advising so we can help you make sure you are on track to graduate.

Twenty seven of the 39 units required for the major must be upper division. History majors cannot choose CR/NC grading in more than two history courses for their major, nor elect CR/NC grading in HIST 300 GW or their proseminar. With the consent of their advisor, students may offer up to six units from other departments to count toward their history major.

History B.A. Honors Concentration (45 units)

Prerequisites (12 units)

In order for a student to be eligible for admission to the History Honors Program, the following requirements must be met:

1. An overall GPA of 3.25 in courses at the college level and an overall GPA of 3.25 in history courses taken.
2. Students must also complete each of the following courses with a grade of B or better (12 units):
 - HIST 110 History of Western Civilization I **or** HIST 114 World History to 1500
 - HIST 111 History of Western Civilization II **or** HIST 115 World History Since 1500
 - HIST 120 History of the U.S. through Reconstruction
 - HIST 121 History of the U.S. since Reconstruction

The courses listed above are SFSU courses and should be taken as soon as possible because they form the basic introduction to the subject matter of history. They may be taken out of sequence. Equivalent courses from other institutions are also acceptable.

Required Courses (9 units) :

- HIST 300 GW_ (Must pass with a "C" or better, cannot be taken CR/NC)
- Proseminar (HIST 640, 642, or 644 variable topic course)
- HIST 697, Honors Thesis.

Fields of Study (24 units):

OPTION I (geographic): Students should complete 12 upper division units in *one* field of study and 6 upper division units in *each* of *two* other fields of study. US History must be one of the three fields.

History B.A. Honors Concentration (45 units) Continued

Extended Requirements for the Honors Major

1. Language or Statistics/Data Processing Proficiency: To graduate in the History Honors Program, a student must demonstrate either proficiency in statistics/data processing or proficiency in a foreign language at a level comparable to that of students who have successfully completed one year of college courses. This level of proficiency is to be demonstrated as follows:

Two semesters of college-level language or statistics/data processing with a grade of B or better

or

Equivalent proficiency in a foreign language based on successful completion of an examination to be administered by the Foreign Languages Department.

2. Grade Performance Requirement: Students are expected to maintain a minimum grade of B in each course offered to meet the Honors major requirements, and a grade point average of 3.25 in all courses taken to complete the Honors Program. Students failing to maintain the required GPA will be dropped from the program. Additionally, students will be required to have an overall grade point average of 3.25 in all university-level courses taken to fulfill the University requirements for the Honors degree

History Minor – 24 Units

The History Minor provides an opportunity for students majoring in fields other than history to pursue a structured course of study in History and to have it reflected on their transcript through designation of history as a minor field of study.

Required Courses (15 units)

- HIST 110 History of Western Civilization I **or** HIST 114 World History to 1500
- HIST 111 History of Western Civilization II **or** HIST 115 World History Since 1500
- HIST 120 History of the U.S. through Reconstruction
- HIST 121 History of the U.S. since Reconstruction
- HIST 300 GW_Seminar in Historical Analysis - GVAR (Must pass with a "C" or better, cannot be taken CR/NC)

Elective Courses (9 units)

- Any 9 upper division History units.

Please note, if you are interested in taking a proseminar (Hist 640, 642, or 644 variable topic course) you must successfully complete History 300 GW with a "C" or better. The proseminar requirement ALSO counts as 3 units of upper division history

STUDENT ACTIVITIES AND ORGANIZATIONS IN HISTORY

History Students Association

The History Students Association is an approved student organization, funded by student fees through the Associated Students, and open to all students (both undergraduate and graduate) with an interest in

History. Members elect officers annually. Members and officers plan the annual program, which may include discussions by faculty members of work-in-progress, lectures by distinguished visiting historians, films, and social gatherings. The HSA also organizes an annual conference which presents student research. To get on the HSA email announcement list, send a message to hsa@sfsu.edu, or leave a message in the HSA mailbox in the History Department.

Phi Alpha Theta (Honor Society for Students in History)

Founded in 1921, Phi Alpha Theta has, as its primary purpose, the encouragement and recognition of excellence in the study of history. Membership in Phi Alpha Theta should be listed among other university honors when applying to graduate or professional schools or when applying for employment in any history-related field. The national organization publishes *The Historian*, a quarterly journal that presents articles from all fields within the discipline of history. Student members, both graduate and undergraduate, are eligible to participate in annual prize paper awards.

The Kappa Phi chapter was founded at what was then San Francisco State College in 1965. Kappa Phi chapter members take part in the activities of the History Student Association on campus, and participate in the northern California regional meeting of Phi Alpha Theta held each spring on the campus of one of the northern California chapters. At this meeting, students present their research, and prizes are awarded for the outstanding papers.

To qualify for membership, undergraduate students must meet three conditions: (1) have completed at least 60 semester units toward the B.A. degree, (2) have at least twelve semester hours in history with an overall GPA of at least 3.50 in history courses, and (3) have an overall GPA of at least 3.0 in all college work. Graduate students must meet two conditions: (1) have completed at least twelve units toward their Graduate Approved Program (GAP), and (2) have an overall GPA of at least 3.50 in history graduate courses.
